

BMW ConnectedDrive Services - Legal notices on data protection

The high standard that you associate with the features of our products and services are the guideline we use in handling your data. In doing so, we seek to create and maintain an environment conducive to a trustworthy business relationship with our customers and interested parties. The confidentiality and integrity of your personally identifiable data is especially important to us.

Who is the authority responsible for data processing?

Data processing takes place together with the national sales company [BMW Vertriebs GmbH – Branch Bulgaria, 55, Nikola Vapzarov Blvd., Expo 2000, 1407 Sofia, Bulgaria, with its registered office in Sofia and entered in the Commercial Register with the Registry Agency under Universal Identity Code: 175255126] (hereinafter "NSC") and Bayerische Motoren Werke Aktiengesellschaft, Petuelring 130, 80788 Munich, Germany, headquarters and court of registration: Munich HRB 42243 (hereinafter "BMW").

The NSC provides to the customer certain vehicle-based information and assistance services (hereinafter "Services") under the designation "BMW ConnectedDrive" (hereinafter "ConnectedDrive Agreement") and is the contractual and operational point of contact for the customer.

BMW is responsible for technical provision of the services. Data is transmitted to BMW from the NSC to provide the services and support for the customer.

What data about you is processed and for what purpose?

Data collected in the course of concluding an agreement or rendering services is processed for the purposes listed below:

A. Conclusion of agreement (GDPR 6(1)(b))

As part of concluding the agreement, the categories of data listed below are processed:

- Contact data (last name, first name, address, email address, etc.)
- Account data (ConnectedDrive or myBMW login account, bank account, etc.)

The agreement data is deleted automatically 1 year after the agreement expires; financial transactions are deleted after 10 years as stipulated by law.

B. Fulfilment of the contractual obligation for performance of the ConnectedDrive Agreement (GDPR 6(1)(b))

For the purposes of fulfilling the ConnectedDrive Agreement concluded between you and NSC, BMW renders a variety of services, such as BMW Intelligent eCall, information services, real-time traffic information, TeleServices, etc.

For performance of these services, the following—potentially personally identifiable—information from the vehicle is processed by BMW and commissioned service providers for such performance:

- Vehicle status information (mileage, battery voltage, door and hatch status, etc.)
- Position and movement data (time, position, speed, etc.)
- Vehicle service data (due date of next service visit, oil level, brake wear, etc.)
- Dynamic traffic information (traffic jams, obstacles, signs, parking spaces, etc.)
- Environmental information (temperature, rain, etc.)
- User profile (configured news, e-mail or audio provider, etc.)
- Sensor information (radar, ultrasonic devices, gestures, voice, etc.)

A complete list and detailed description of the services and the data used in each case can be found [here](#).

The provision of this data is not actually necessary for concluding the ConnectedDrive Agreement. Without your provision of such data and the processing of such data, BMW is, however, unable to provide the respective service for you.

The processed personal data is deleted automatically after 4 weeks if it is not needed longer for provision of the specific service.

[BMW Group login](#)

In order to use the ConnectedDrive services in their entirety, you also have to register on the ConnectedDrive portal. Upon registering, you will receive an online customer account that allows you to access additional portals of BMW Group.

Through the online customer account from the BMW Group login, you will receive a universal ID that is recognized by all applications. Applications use this ID to gain access to the data you have entered in the customer account in order to use it for some services, such as being able to greet you by name.

In order to offer this service with the BMW Group login, BMW AG passes your data on to each BMW Group company that acts as a provider of the applications in use by you. Storage of the data from your customer account is handled by BMW AG and is separate from any other (even potentially identical) data about your person that may be available to BMW Group.

C. Securing product quality and developing new products (GDPR 6(1)(f))

Beyond mere performance of service, the data collected under B. is also processed for quality assurance in products and services offered by BMW Group and for developing new products and services by BMW. This processing is used for the legitimate interests of BMW to meet the high customer standard placed on existing products and services and to allow the company to fulfill the future requests of its customers through new products and services that have not yet been developed. In order to protect the privacy of our customers, data is processed solely in a manner that cannot be traced back to the customer/vehicle directly.

D. Fulfillment of the sales, service and administrative processes of BMW, the national sales company and authorized dealers (GDPR 6(1)(f))

In order to optimize the customer experience and collaboration with BMW distributors continuously, we create evaluations and reports based on information from agreements and we share these evaluations and reports with the applicable BMW distributors. These evaluations are predominantly used for introducing appropriate measures (e.g. training courses for sales personnel) to improve the request and sales process. We will create the aforementioned reports only in an aggregated and anonymized form; this means that the recipients of the reports will be unable to draw any conclusions about you personally.

Portions of the vehicle-specific data collected under B. are used for performance of the service processes (e.g. repair, warranty, goodwill) of BMW, the national sales companies and authorized dealers. This processing is within the legitimate interests of BMW to provide our customers with the best possible service process. Processing sometimes also takes place in connection with legal requirements (e.g. repair and maintenance information due to the provisions of anti-trust regulations). Technical data is always processed in relation to the vehicle and without direct connection to the customer in order to protect the privacy of our customers.

The following data categories are used for this:

- Vehicle master data (vehicle type, color, equipment, etc.)
- Vehicle service data (due date of next service visit, oil level, brake wear, etc.)
- Vehicle status information (mileage, battery voltage, door and hatch status, etc.)

The technical vehicle data is deleted at the end of the vehicle life cycle.

The NSC is a company within BMW Group. In part, we process your data in order to make the administration of the various companies within BMW Group as efficient and successful as possible. One of the areas this affects is common group accounting in accordance with international accounting regulations for companies (such as the International Financial Reporting Standards (IFRS)).

E. Customer support (GDPR 6 (1)(b), (g), (f))

The NSCs and BMW partners use your personal data for communication as part of concluding contracts, see above (e.g. booking BMW ConnectedDrive services) or for the transaction of a request formulated by you (e.g. inquiries and complaints to BMW Customer Support). We contact you regarding all aspects of concluding a contract or processing a request without special permission e.g. in writing, by phone, by messenger services, by e-mail, depending on which contact data you have specified.

F. Marketing communications and market research due to consent (GDPR 6 (1) (a))

If you have given your consent to any further use of your personal data, your personal data may be used and, if necessary, passed on to third parties in accordance with the scope outlined in the consent form, such as for promotional purposes and/or market research. The details in this regard can be found on the respective consent form, which may be withdrawn at any time.

G. Fulfillment of legal obligations of the NSC or BMW (GDPR 13(1)(c) and 6(1)(c))

The NSC will also process personal data if there is a legal obligation to do so. This could be the cause if we needed to contact you because your vehicle is subject to a recall or repair request.

Collected data is also processed as part of safeguarding the operation of IT systems. Safeguarding in this context includes, but is not limited to, the following actions:

- Backup and restoration of data processed in IT systems
- Logging and monitoring transactions to check the specific functionality of IT systems
- Detecting and defending against unauthorized access to personal data
- Incident and problem management for resolving problems in IT systems.

Collected data is also processed as part of internal compliance management, wherein we review aspects such as whether you have received sufficient advising as part of concluding an agreement and whether dealers have complied with all legal requirements.

BMW is subject to a number of additional legal obligations. In order to comply with these obligations, we process your data to the extent needed and pass on this data to the responsible authorities if necessary as part of legal reporting requirements.

H. Data transfer to selected third parties

The data collected under B. can be passed on to a third party electronically at your request. This is used in the fulfillment of other purposes in the relationship between you and the third party, such as concluding a usage-related insurance policy for your vehicle. You can find more information at www.bmw-connecteddrive.com.

BMW provides the data collected under B. to third parties in anonymized form for the purposes of using resources such as mobility services, maps and tools, especially in combination with highly automated, fully automated and autonomous driving.

How long do we store your data?

We save your personal data only for as long as the specific purpose requires. If the data is processed for several purposes, the data is deleted automatically or saved in a form that cannot be traced directly back to you once the last specified purpose has been met.

How is your data stored?

We store your data in accordance with the state of the art of technology. The following security measures serve as an example of the measures applied to protect your personal data from misuse or other unjustified processing:

- The availability of access to personal data is restricted to just a limited number of authorized persons for the specified purposes.
- Collected data is transferred only in encrypted form.
- Sensitive data is also saved only in encrypted form.
- The IT systems for processing the data are compartmentalized from other systems, e.g. to prevent hacking.
- In addition, access to these IT systems is monitored continuously in order to ward off and detect misuse early.

To whom is the data passed and how do we protect it along the way?

BMW is a global company. Personal data is processed by BMW employees, national sales companies, authorized dealers and by service providers we have commissioned, with preference given to those within the EU.

If data is processed in countries outside the EU, BMW uses EU standard agreements, including suitable technical and organizational measures, to ensure that your personal data is processed in accordance with the European level of data privacy. If you want to access the actual protections for data transfer to other countries, please contact us using the communications channels specified below.

The EU has already established a comparable data privacy level for some countries outside the EU, e.g. Canada and Switzerland. Due to the comparable data privacy level, data transfer to these countries does not require any special approval or agreement.

How can you review and change your privacy settings?

You can review and/or change privacy information at any time in the ConnectedDrive portal. These changes are automatically synchronised in your vehicle. Depending on the vehicle model, you can also access a corresponding privacy menu in your vehicle in which you can also change these settings.

Contact details, your rights as a data subject and your right to lodge complaints with a supervisory authority.

In the event of questions regarding our use of your personal data, please start by contacting BMW customer support.

BMW Customer Service can be reached by email at: info.bg@bmwgroup.com.

The BMW ConnectedDrive Hotline is available from Monday to Friday from 8 am to 8 pm on the phone number 0800 20 230.

As persons affected by the processing of your data, you can assert certain rights in accordance with the GDPR and in accordance with other applicable data privacy provisions. The following section contains explanations regarding your rights as a data subject in accordance with the GDPR.

Rights as a data subject

In accordance with the GDPR, you specifically have the following rights as a data subject in relation to BMW:

Right of access by the data subject (GDPR Article 15): At any time, you can request information about the data that we have about you. This information includes the data categories processed by us, the purposes for which we process it, the source of the data if we did not collect it from you directly and, where applicable, the recipients to which we have transferred your data. You can obtain from us one free copy of your data that is part of the agreement. If you are interested in additional copies, we reserve the right to charge you for any additional copies.

Right to rectification (GDPR Article 16): You can request that we rectify your data. We will take appropriate measures to maintain, based on the latest information available to us, the correctness, completeness, timeliness and relevance of the data we have and continue to process regarding you.

Right to erasure (GDPR Article 17): You can request that we erase your data if the legal requirements exist for doing so. In accordance with GDPR Article 17, this could be the case if

- the personal data is no longer necessary in relation to the purposes for which it was collected or otherwise processed;
- you withdraw your consent on which the processing is based and where there is no other legal ground for the processing;
- you object to the processing of your data and there are no overriding legitimate grounds for the processing, or you object to data processing for direct marketing purposes;
- the personal data has been unlawfully processed

if such processing is not necessary

- for compliance with a legal obligation that requires that we process your data;
- especially with respect to retention periods required by law;
- for the establishment, exercise or defense of legal claims.

Right to restriction of processing (GDPR Article 18): You can request the restriction of processing of your data by us if

- you contest the accuracy of the personal data for a period enabling us to verify the accuracy of the personal data;
- the processing is unlawful and you oppose the erasure of the personal data and request the restriction of its use instead;
- we no longer need your data but you require it for the establishment, exercise or defense of legal claims;
- you have objected to processing pending the verification whether our legitimate grounds override yours.

Right to data portability (GDPR Article 20): Your data shall, where technically feasible, be transmitted to another responsible party at your request. This right shall be available to you only insofar as data processing is based on your consent or is necessary in performance of an agreement. Instead of receiving a copy of your data, you can also request that we transfer the data directly to another controller that you specify.

Right to object (GDPR Article 21): You can object, on grounds relating to your particular situation, at any time to processing of your personal data if data processing relates to your consent or to our legitimate interests or to those of a third party. We will cease processing of your data in such a case. The latter shall not apply if we can demonstrate compelling legitimate grounds for the processing which override your interests or we require your data for the establishment, exercise or defense of legal claims.

Periods for fulfillment of rights as a data subject

We always make an effort to comply with all requests within 30 days. This period, however, may be prolonged for any reason relating to the specific right of a data subject or the complexity of your request.

Information restriction for fulfillment of rights as a data subject

In certain situations, we may be unable to provide you with any information about any of your data due to legal requirements. If we are required to decline a request for information in such a case, we will promptly notify you of the reasons for the refusal.

Complaints to supervisory authorities

BMW AG takes your rights and concerns very seriously. If you feel that we have not duly addressed your complaint or concern, you have the right to lodge a complaint with a responsible data protection authority.

Valid from: November 2018

BMW ConnectedDrive Services - General Terms and Conditions

1. BMW ConnectedDrive Services and BMW ConnectedDrive Agreement

1.1 BMW Vertriebs GmbH, headquartered in Salzburg acting through its Bulgarian affiliate BMW Vertriebs GmbH – Branch Bulgaria, 55, Nikola Vapzarov Blvd., Expo 2000, 1407 Sofia, Bulgaria, with its registered office in Sofia and entered in the Commercial Register with the Registry Agency under Unified Identity Code: 175255126] and using for tax reasons in Bulgaria VAT number 175255126 (hereinafter “BMW”), shall provide the customer with vehicle-related informational and support services (hereinafter “Services”) known as “BMW ConnectedDrive,” as defined by these General commercial Terms and Conditions of usage (hereinafter „commercial Terms“).

1.2 The current version of these General Terms and Conditions can be reviewed, saved and printed at any time at www.bmw.bg. Any changes to these General Terms and Conditions shall be published no later than six weeks before their intended effective date, and communicated to the customer to the extent that BMW is able to contact the customer. If the customer has agreed an electronic communication channel with BMW, the changes can also be reported via this channel. The changes in the General Terms and Conditions shall become part of the Agreement as long as the customer does not object before the planned date when the changes are to take effect.

1.3 In order to provide the customer with the Services, a BMW ConnectedDrive agreement must be concluded between the customer and BMW. The BMW ConnectedDrive agreement represents the framework agreement between BMW and the customer; by itself, without booking individual Services, it shall not constitute an acceptance or payment obligation for the Customer. However, based on this framework agreement, the customer is entitled to use the basic BMW ConnectedDrive Services as laid down in the Description of the Services (Point 3.1). The basic BMW ConnectedDrive Services include in particular the “Intelligent Emergency Call”. Additional BMW ConnectedDrive Services under the BMW ConnectedDrive agreement (depending on the selected vehicle equipment) may be booked upon purchasing the vehicle.

1.4 If the customer orders a new BMW vehicle from a seller (authorized BMW dealer or BMW branch) that features necessary standard or optional equipment for a specific Service, the customer shall simultaneously offer to conclude a BMW ConnectedDrive agreement with BMW for the use of this Service.

- a) If the respective Service is part of the standard equipment for the new BMW vehicle, the BMW ConnectedDrive agreement shall be concluded between the customer and BMW at the same time when the purchase agreement for the new BMW vehicle is concluded between the customer and the seller.
- b) If the respective Service is exclusively part of the optional equipment for the new BMW vehicle, the customer shall be bound to his/ her offer to conclude the BMW ConnectedDrive agreement only from such time when the customer can no longer deselect the optional equipment ordered for the new BMW vehicle. The BMW ConnectedDrive agreement shall be concluded between the customer and BMW when the Service is activated by BMW upon initial registration of the new BMW vehicle.

1.5 If the customer decides not to use the BMW ConnectedDrive Services, and if the built-in SIM card in the vehicle is deactivated at the customer’s request before the new vehicle is handed over, this shall be considered a withdrawal from the ConnectedDrive agreement concluded as per Point 1.4.

1.6 If no BMW ConnectedDrive agreement is concluded between BMW and the customer as per Point 1.4, the customer can conclude a BMW ConnectedDrive agreement for any vehicle owned by the customer or provided for the customer’s long-term use by the respective owner that has the corresponding standard or optional equipment, according to the following requirements:

- a) If the customer’s vehicle is technically capable of receiving a security code, the customer can assign the vehicle to his/her account in the “My BMW ConnectedDrive” customer portal. In order to successfully assign the vehicle, the customer shall be asked to enter the security code received by the vehicle into the “My BMW ConnectedDrive” customer portal. By confirming and entering the security code received in the vehicle into the customer portal under “My BMW ConnectedDrive“, the customer offers the conclusion of a BMW ConnectedDrive agreement. The BMW ConnectedDrive agreement between BMW and the customer shall be concluded at the time when the customer’s vehicle appears as available under “My BMW ConnectedDrive”.
- b) If the customer’s vehicle is not technically capable of receiving a security code, the customer shall request the conclusion of a BMW ConnectedDrive agreement with BMW by submitting a properly

completed identification form, which is provided to the customer after entering the necessary data when adding the vehicle under "My BMW ConnectedDrive." The BMW ConnectedDrive agreement between BMW and the customer shall be concluded at the time when the customer's vehicle appears under "My BMW ConnectedDrive" as an available vehicle.

1.7 In the abovementioned case (Point 1.4), the customer waives the need for a separate declaration of acceptance.

2. BMW ConnectedDrive customer portal and the BMW ConnectedDrive Store (if available)

2.1 At the web address www.bmw-connecteddrive.com, BMW provides the customer with the BMW ConnectedDrive customer portal, "My BMW ConnectedDrive," and the "BMW ConnectedDrive Store" as defined in these General Terms and Conditions. Use of "My BMW ConnectedDrive" and the "BMW ConnectedDrive Store" is free of charge for the customer.

2.2 Before using "My BMW ConnectedDrive" and the "BMW ConnectedDrive Store," the customer must first set up a user account and register with a user name and password. The customer can use the resulting account not just for "My BMW ConnectedDrive," and the "BMW ConnectedDrive Store," but also for other BMW offerings such as various apps, as defined by the respective Service.

2.3 The customer can use "My BMW ConnectedDrive" to review which Services have been activated for the vehicle, and to manage these. In order to do so, the customer's user account must be linked to the vehicle for which the customer booked the Services and for which the Services will be used. To create this link, the customer must provide BMW with the vehicle identification number and customizable identification features, using "My BMW ConnectedDrive."

2.4 Depending on the availability and equipment for the respective vehicle, the customer can order fee-based as well as free Services from either the user interface in the vehicle or from "My BMW ConnectedDrive" in the "BMW ConnectedDrive Store" area.

2.5 Ordering fee-based or free Services from the "BMW ConnectedDrive Store" requires the conclusion of a BMW ConnectedDrive agreement (as per Points 1.4 and 1.6); in addition, the customer must be registered in "My BMW ConnectedDrive," the customer's vehicle must be linked with his/her user account, and the address and payment details must be entered.

3. Description, term and availability of the Services

3.1 The scope of the individual Services, their terms and availability are described in detail during the booking process as well as at www.bmw.bg (hereinafter "Description of Services"). BMW shall specify the costs for these Services individually, or jointly in the context of the ordering process for multiple Services.

3.2 The term of the BMW ConnectedDrive agreement as per Point 1.3 is open-ended. The term for other Services booked in addition to the basic Services shall be based on the respective Description of Services. In general, a fixed-term, fee-based Service shall have a maximum term of two years and shall be automatically extended by a maximum of one additional year unless the customer terminates it with six weeks' notice to the end of the agreed term.

3.3 The Services are provided via a SIM card installed in the vehicle. Consequently, the Services are to some extent geographically limited by the reception and transmission range of the communication station operated by the respective network operator, and can particularly be impaired by atmospheric conditions, topographical circumstances, the vehicle's position, and obstacles (e.g. bridges and buildings). In addition, the provision of Services requires the mobile communication network needed for the installed SIM card to be functional and ready for operation.

3.4 Disruptions in service may result from force majeure, including strikes, lockouts and official requirements, as well as on the basis of technical or other measures, for instance as performed on systems belonging to BMW, suppliers of transit data or the network operator to ensure proper operations or to improve service (e.g. maintenance, repairs, system-related software updates, expansions). Disruptions in service may also result from short-term capacity shortfalls caused by demand peaks for the Services, or from disruptions in third-party telecommunications systems. BMW shall take all reasonable efforts to rectify such disruptions immediately or to work towards their rectification.

3.5 The customer can inform BMW Customer Service (see Point 9) about any disruptions in service.

3.6 BMW reserves the right to modify the scope of a Service if and to the extent that this modification is reasonable for the customer with regard to the total scope of the agreed Service. In the event of a further

modification of the scope of a Service that can be reported to the customer in writing or via an electronic communication path, the customer can extraordinarily terminate this Service within six weeks of receiving the change notification, and have it deactivated free of charge via the BMW ConnectedDrive Hotline (see Point 9).

4. Using the Services

4.1 The customer may not use the Services for illegal purposes, and shall ensure that third parties do not do this either. The customer is not authorized to share the data and information received in the context of using the Services with third parties for commercial purposes, or to further process these.

4.2 The customer shall bear the costs of any misuse of the Emergency Call Service.

4.3 The BMW ConnectedDrive agreement between BMW and the customer, as well as the Services booked by the customer, are linked to the vehicle and cannot be transferred to another vehicle or be used in another vehicle.

5. Procuring additional Services via the “BMW ConnectedDrive Store” (if available)

5.1 In addition to the basic Services, the customer can either order additional BMW ConnectedDrive Services directly when purchasing the new vehicle, or later through the “BMW ConnectedDrive Store.” The “BMW ConnectedDrive Store” offerings are intended for customers in Bulgaria.

5.2 Offer and conclusion of contract when ordering Services through the “BMW ConnectedDrive Store”

- a) BMW shall offer the customer various services through the “BMW ConnectedDrive Store” and shall submit a binding offer; a customer who has registered with “My BMW ConnectedDrive” can book this offers at the stated fixed price. Details about the respective Service and its term can be found in the descriptions of individual Services in the “BMW ConnectedDrive Store” and in the Description of Services. A binding booking is created for a Service as soon as the customer clicks on “Buy now” button for fee-based Services, or “Order now” for free Services, as well as (in both cases) accepts the General Terms and Conditions of Service.
- b) The customer can correct input errors by cancelling the transaction and restarting the procedure.
- c) After completing the ordering transaction, the customer shall receive an e-mail confirmation of the conclusion of a contract for the booked Service, the Description of Services, and the General Terms and Conditions of Service with an instruction about the possibility of withdrawal from the agreement.
- d) The contract text sent to the customer shall not be saved separately by BMW, and the customer can no longer retrieve or view it with BMW once the contract is concluded.

5.3 Ordering process using “My BMW ConnectedDrive” and the “BMW ConnectedDrive Store”

- a) Step 1: Launching an online order under “My BMW ConnectedDrive.”
In the “Store” area under “My BMW ConnectedDrive,” the customer can find information required by law about the Services (with various terms and prices, if applicable) offered for BMW ConnectedDrive. Next, the customer can choose a Service (with term and price, if applicable). The order is started when the customer initiates the online ordering process for the Service during the chosen term, via the “Book now” button.
- b) Step 2: Customer status
If the customer has not yet registered with “My BMW ConnectedDrive” and/or has not yet provided address or payment information, the customer must perform these steps before an order can be completed.
- c) Step 3: Order overview/changing orders
If the customer has already registered with “My BMW ConnectedDrive” and has saved address and payment information there, he/she shall be taken directly to an overview page that shows the entire order and all of the relevant contract information. The customer has the option of cancelling the order transaction by leaving the web page. If the customer agrees with the order overview, he/she can click on the “Buy now” button to submit a binding order. If the customer has not yet registered with “My BMW ConnectedDrive” and/or has not yet saved any address or payment information, the customer must first do this in the “Administration” area of “My BMW ConnectedDrive” before an order can be completed.

d) Step 4: Order information

After completing the order transaction, the customer shall also receive the Description of Services and the General Terms and Conditions via an e-mail message. Customer who is a consumer in the meaning of the Consumer Protection Law receives confirmation of the agreement on a tangible form, e.g. in a form of an e-mail to an address indicated by the Customer before launch of the application.

5.4 Ordering process in the vehicle

a) Step 1: Launching an online order in the vehicle

In the "ConnectedDrive Store" area of the user interface in the vehicle, the customer can find information about the current Services (including terms and prices) that BMW offers in the context of BMW ConnectedDrive. Next, the customer can choose a Service. The order is started when the customer initiates the online ordering process for the Service by clicking on the "Next" button.

b) Step 2: Customer status

If the customer has already registered with "My BMW ConnectedDrive" and has saved address and payment information there, he/she is only required to enter the username and password on the following screen. Clicking on the "OK" button takes the customer directly to Step 3.

If the customer has not yet registered with "My BMW ConnectedDrive" and/or has not yet saved any address or payment information, the customer must first do this in the "Administration" area of "My BMW ConnectedDrive" before an order can be completed.

c) Step 3: Order overview/changing orders

After logging in, the customer will see an overview page with the complete order and all of the relevant contract information. The customer has the option of cancelling the order transaction by leaving the "ConnectedDrive Store." If the customer agrees with the order overview, he/she can click on the "Buy now" button to submit a binding order.

d) Step 4: Order information

After completing the order transaction, the customer shall also receive the Description of Services and the General Terms and Conditions via an e-mail message. Customer who is a consumer in the meaning of the Consumer Protection Law receives confirmation of the agreement on a tangible form, e.g. in a form of an e-mail to an address indicated by the Customer before launch of the application.

5.5 Provision and activation of the Services

Once the customer has clicked on the "Buy now" or "Order now" button, the Service is booked with BMW and forwarded to the activation department. Next, a provisioning file is sent to the vehicle and the Service is activated in the vehicle. As a rule, this process takes just a few minutes.

However, if the data connection is interrupted, the process cannot be completed. In this case, the Service provision shall be delayed accordingly until transmission to the vehicle is possible.

5.6 Payment

a) The stated prices are in PLN and include value-added tax.

b) The customer can pay for fee-based Services using the available payment options in each case.

c) In the event of a payment delay by the customer, BMW is entitled to suspend or cease provision of the affected Services and to deactivate the customer's access authorization for the Services in question until the customer has settled the payable liabilities. This deactivation also affects the functionality of the "Intelligent Emergency Call" Service, if available. The customer is considered in payment default if no payment is made within 30 days after the invoice is issued.

d) The customer may only offset against BMW's claims if the customer's counterclaim is undisputed or legally established. The customer may only assert a retention right to the extent that this is based on claims from the contractual relationship with BMW.

5.7 Cancellation right for consumers

A customer being a consumer in the meaning of respective provisions of the Consumer Protection Law shall be entitled to withdraw from the contract within 14 days following the conclusion of the contract for any reason whatsoever and without any costs for the consumer. For that purpose the customer may, but is not obliged to, use a withdrawal form attached to these General Terms and Conditions (see point 8).

6. Deactivating the Services, terminating the BMW ConnectedDrive agreement

6.1 The customer can have the SIM card installed in the vehicle deactivated at any time by an authorized BMW retailer, a BMW branch or an authorized BMW repair shop. Deactivating the SIM card deactivates all of the booked ConnectedDrive Services, including the basic Services. Deactivation will also cause the Intelligent Emergency Call function in the vehicle to be deactivated, if available. The eCall, cannot be disabled at the request of the customer.

6.2 BMW and the customer can terminate the BMW ConnectedDrive agreement (to the extent that an open-ended term applies to this agreement as per 3.2) as well as any open-ended Service at any time, with six weeks' notice. Otherwise, for fixed terms, termination is possible with six weeks' notice to the end of the term if the term would otherwise be automatically renewed, by stating the lack of will to continue the agreement.

7. Sale or permanent transfer of the vehicle

7.1 The customer is not entitled to transfer its existing BMW ConnectedDrive agreement with BMW to a third party without BMW's permission. This also applies in the event that the customer sells or transfers the vehicle.

7.2 In the event of a sale or permanent transfer of the vehicle to a third party, the customer shall ensure that all personal data saved in the vehicle have been deleted."

7.3 The customer must inform the third party to whom he/she is selling or transferring the vehicle about all active and deactivated services.

7.4 In the event of a sale or transfer for a long-term use of the vehicle to a third party, the customer shall also have the right, in addition to the termination option as per point 6.2, to terminate a fixed-term Service with six weeks' notice. If the customer terminates a fixed-term Service before the end of the term, the price already paid for this Service shall not be refunded on a pro rata basis.

8. Cancellation right for consumers

If the customer is a consumer in the sense of the Consumer Protection Law , the customer shall have a 14-day cancellation right in the event of a contract conclusion as per Point 1.6. According to para 13.1 of the Supplementary Provisions of the Consumer Protection Law, a consumer is any natural person using the services for purposes other than for carrying out his/her business or professional activity or a natural person that as a party to the agreement acts outside the scope of his/her business or profession.

The following section informs the customer about this cancellation right:

Cancellation policy

Cancellation right

You have the right to cancel this contract within fourteen days without any explanation.

The cancellation period is fourteen days from the date when the contract is concluded.

In order to exercise your cancellation right, you must inform us (BMW Vertriebs GmbH, Siegfried-Marcus-Strasse 24, 5021 Salzburg, Austria, seat and district court: Salzburg, Fn 63069, acting through its Bulgarian branch under the business name BMW Vertriebs GmbH – Branch Bulgaria, 55, Nikola Vapzarov Blvd., Expo 2000, 1407 Sofia, Bulgaria, registered with the Commercial Register at the Registry Agency under Unified Identity Code 175255126)) via an unambiguous declaration (e.g. a letter sent by mail, fax or email) of your decision to cancel this contract. You may use the attached sample cancellation form, but this is not required.

You are considered to be within the cancellation period as long as you send the notice exercising your cancellation right before the end of the cancellation period.

Consequences of cancellation

If you cancel this contract, we must refund all payments we received from you – including delivery costs (with the exception of additional costs resulting from your choice of a type of delivery other than the cheapest standard delivery we offered) – immediately, at the latest within fourteen days after we receive the notice of your cancellation of this contract. We shall use the same payment method to refund the payments that you used for your original transaction, unless explicitly agreed otherwise with you. Under no circumstances shall you be charged fees for this refund.

If you requested the Services to start during the cancellation period, you must pay us an appropriate amount that corresponds to the share of Services already provided by the time you informed us that you would be exercising the cancellation right for this contract, in relation to the total scope of Services described in the contract.

Sample cancellation form

(If you wish to cancel the contract, please complete this form and send it back to us.)

To BMW Vertriebs GmbH, acting through its Bulgarian branch under the business name BMW Vertriebs GmbH – Branch Bulgaria, 55, Nikola Vapzarov Blvd., Expo 2000, 1407 Sofia, Bulgaria, registered with the Commercial Register with the Register Agency with Unified Identity Code 175255126, E-Mail: info.bg@bmwgroup.com:

- I/we (*) hereby cancel the contract that I/we (*) concluded with regard to the purchase of the following goods (*)/the provision of the following Service (*) –
Ordered on (*)/received on (*)
- Name of the consumer(s)
- Address of the consumer(s)
- Signature of the consumer(s) (only for notifications on paper)
- Date

(* Please strike out where not applicable.)

9. Contact

BMW Customer Service can be reached by email at: info.bg@bmwgroup.com.

The BMW ConnectedDrive Hotline is available from Monday to Friday from 8 am to 8 pm on the phone number 0800 20 230.

10. Liability

10.1 Within the legal stipulations, BMW does not assume any liability for the accuracy or up-to-date nature of data and information provided about the Services.

10.2 Within the legal stipulations, BMW shall not be liable for the consequences of disruptions, interruptions and functional impairments to the Services, particularly the cases described under 3.3 and 3.4.

10.3 In the event of slight negligence, BMW shall only be liable if significant contractual obligations (cardinal obligations) are violated, for instance those imposed upon BMW in terms of content and purpose or the fulfilment of which allows the contract to be properly executed and upon the fulfilment of which the customer regularly relies and may rely. This liability is limited to the typical foreseeable damages at the time when the contract is concluded.

10.4 The personal liability of BMW's statutory representatives, vicarious agents and employees for damages that they cause through slight negligence is also limited to the scope described in the above section.

10.5 BMW's liability in the event of a defect being fraudulently concealed, based on the assumption of a guarantee or procurement risk, and based on the Product Liability Act, shall remain unaffected hereby. Liability limitations shall not apply in the event of intent, gross negligence, or a loss of life, bodily injury or damages to health.

11. Data processing and data privacy

11.1 BMW shall collect, save and use personal data provided by the customer within the scope of the statutory provisions, to the extent that this is necessary for establishing, designing the content of or modifying the contractual relationship, and for using as well as invoicing the Services. Details about the processing of personal or vehicle related data within the scope of the individual Services can be found in the Privacy Notice, Description of Services and at www.bmw.bg.

11.2 The customer shall immediately report to BMW any changes to his/ her personal data that will affect the contractual relationship and the invoicing of the Services.

12. Place of jurisdiction and applicable law

12.1 A court in Salzburg shall have exclusive jurisdiction for claims resulting from relations with entrepreneurs. Jurisdiction for claims resulting from relations with costumers shall be set in accordance with general provisions of law

12.2 All disputes arising from or on the basis of this contractual relationship shall be subject to Austrian law, to the exclusion of the UN Convention on Contracts for the International Sale of Goods (CISG). This choice of law shall only apply to the extent that it does not deprive the consumer of any binding applicable consumer protection regulations in the state where the consumer has his/her usual place of residence at the time of the order.

Rev.: November 2018

Confirmation for the conclusion of an agreement on the provision of BMW ConnectedDrive services

THIS CONFIRMATION (the “**Confirmation**”) is made by BMW Vertriebs GmbH, a company incorporated under Austrian law, having its registered office at Siegfried-Marcus-Strasse 24, 5021, Salzburg, Austria, registered at the District Court of Salzburg under number FN 63069, acting in Bulgaria through BMW Vertriebs GmbH – Branch Bulgaria, 55 Nikola Vaptsarov Blvd., Expo 2000, Sofia 1407, Bulgaria, registered with the Commercial Register kept at the Registry Agency under Unified Identity Code 175255126 (“**BMW**”)

BMW HEREBY CONFIRMS THE CONCLUSION OF A BMW CONNECTEDDRIVE SERVICES AGREEMENT TO

Customer: _____

Residing at / Place of business at: _____

Date of birth / Corporate ID: _____

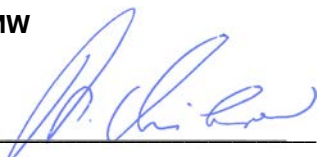

Entry in the Commercial Register: _____

E-mail: _____

(the “**Customer**”)

- 1.1 BMW provides vehicle specific information and support services under the name BMW ConnectedDrive (the “**Services**”), which are further specified in the “BMW ConnectedDrive Services” document, forming schedule to the General Terms and Conditions Governing the Relations between BMW and the users of the BMW ConnectedDrive Services (“**GTC**”). BMW provides the Services based on the aforementioned GTC.
- 1.2 The customer has ordered from the BMW sales partner _____ a new BMW vehicle with the following specification _____ with series or optional equipment enabling the usage of the Services (the “**Vehicle**”);
- 1.3 Upon ordering the vehicle the Customer has filled BMW GetConnected form requesting the provision of the Services and has received a copy of the applicable GTC and accepted them. By virtue of such acceptance an agreement on the provision of the Services (the “**Agreement**”) by and between the Customer and BMW has been concluded, which is hereby confirmed by BMW. The customer shall use the Services provided by BMW in accordance with the GTC.

Austria, Belgium, Bulgaria, Czech Republic, Denmark, France, Germany, Greece, Hungary, Ireland, Italy, Luxembourg, Netherlands, Poland, Portugal, Romania, Russia, Slovakia, Slovenia, Spain, Sweden, Switzerland, United Kingdom

How-to deactivate

You can have the BMW ConnectedDrive / MINI Connected basic services deactivated through an authorized BMW or MINI dealer, a BMW / MINI subsidiary or a BMW / MINI authorized workshop at any time. Deactivation of these Services also deactivates the vehicle's built-in SIM card. This also has the consequence that the emergency call in the vehicle as well as all remaining Services will no longer function.

You can additionally arrange for the remaining Services to be deactivated via “My BMW ConnectedDrive” / “My MINI Connected”.

If the vehicle is equipped with the legally required EU Emergency Call (as from April 2018 only relevant for BMW and BMWi) a deactivation of the BMW ConnectedDrive basic services will not deactivate the vehicle's build-in SIM card. It has to remain active, so that the EU Emergency Call is functional all the time.
